## WEEKLY PROGRESS REPORT (WPR) – 3

**Enrolment No.** – A1004821027

**Program** – BCA

**Batch** – 2021-2024

**Student Name** – Aryan Kaushik

**Faculty Guide's Name** – Jitender Tanwar

**Project Title** – Wikipedia Article Extraction Using Voice Commands

**Target set for the Week** – Learn about all the Modules and how they work.

**Progress/ Achievements of the week** – The modules that will be used in the project are:-

1. Datetime – This tells us what the current date and time is.
2. Speech Recognition – This is used to identify the speech language
3. Pyttsx3 – This is used to enable the voice module
4. Wikipedia Module – This module extracts all the articles from the Wikipedia directly, which are required by the user.

**Future Work Plans** – Starting with the coding part of the project.

**Regards**
**Aryan Kaushik**
